

Wolfgang Weileder

***Seascapes***

The ongoing photographic series of *Seascapes* presents recordings of various coastlines worldwide. Special digital cameras take one-pixel wide recordings of the horizon in regular intervals during the hours before and after sun set. These slice-recordings are then conflated into single photographs with the time progressing from left to right.

The *Seascape* series has been shown at following solo exhibitions:  
*Sous les pavés, La Plage!*, Galerie d'art contemporain L'Entrepôt, Monaco, 2018  
*Meridiano*, MAMBo, Museo d'Arte Moderna di Bologna, Italy, 2015  
*Transversale*, Kunsthalle Recklinghausen, Germany, 2014  
*Morimaru*, Workplace Gallery, Gateshead, UK, 2014  
and in various group exhibitions worldwide.

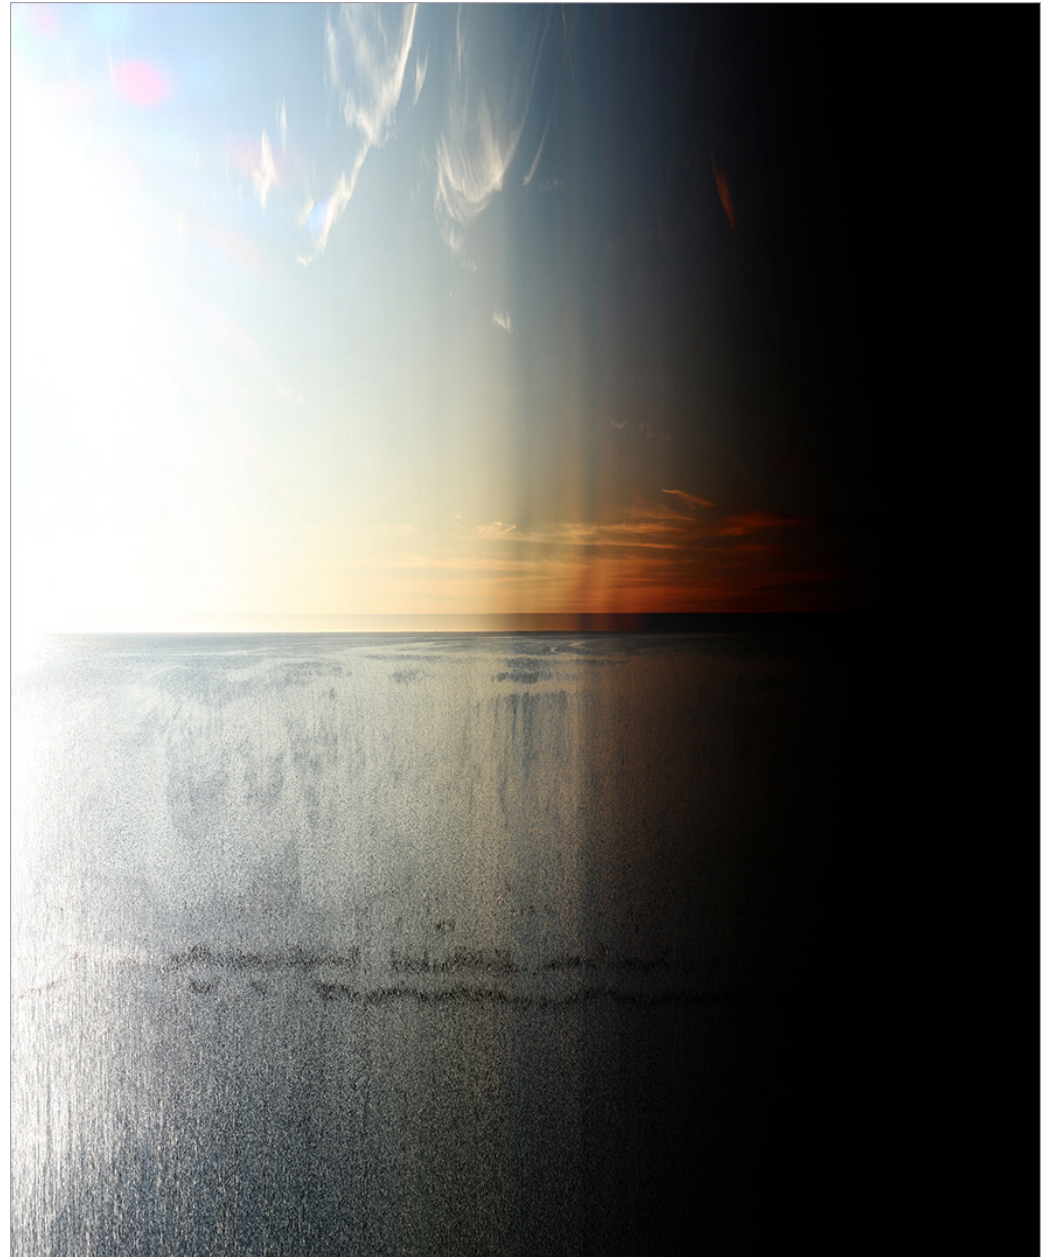

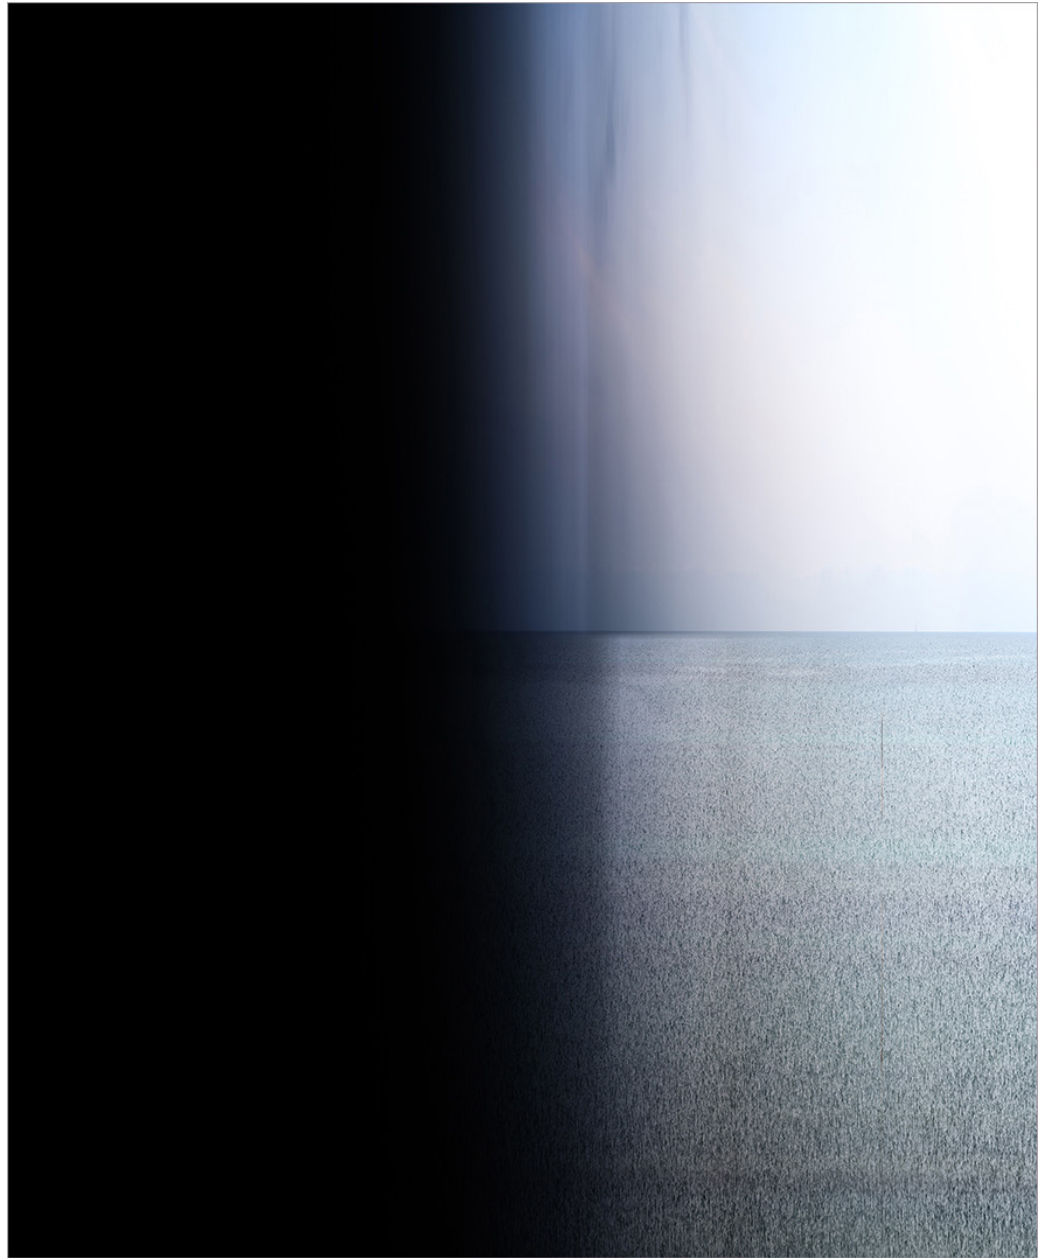

#### INDEX:

2018, Fishboat Bay, Salish Sea, Canada  
2018, Karaoglanoglu Bay, Levantine Sea, Cyprus  
2017, Baie de Roquebrune, Ligurian Sea, Monaco

Wolfgang Weileder's works are investigations into the relationship between time and space, the interface between permanence and transience, and how these can be explored to question our understanding of the landscape, both built and natural.

His work engages with the world through large-scale, temporary site-specific installation and sculpture; temporal recordings of spaces and environments through photography; film, performance and sound installation.

Wolfgang Weileder is originally from Munich, Germany. He moved to the UK in 2000 and is currently Professor in Contemporary Sculpture at Newcastle University.
